

## About this project

**We would like to provide an educational place and opportunity for the students with international background.**

I am Afuso, a staff of ABC Japan (non-profit organization) in Tsurumi-ku Yokohama City.

Now, in Japan, there isn't place to study for students who just came to Japan and don't understand Japanese, stopped going to Japanese school because of difference in culture and custom, want to go to Japanese high school after graduating from junior high school in their home countries.

ABC Japan has been supporting the students with international background with this problem since 6 years ago.

**However, the government subsidy for the classroom rent for 2015 was suddenly cut off. We can't keep supporting those students without our classroom. We would like to ask for your kind support.**

At ABC Japan, we intensively teach the students who just came to Japan how to read Hiragana and Katakana, and common phrases used in Japanese school. After the program is done, the students start going to Japanese elementary / junior high school.

For the students who stopped going to school, we choose the most suitable way to teach to support them to go back to school again.

For the students who want to go to Japanese high school, we teach Japanese and necessary subjects for the entrance exam. They have to take an exam and have an interview in Japanese. They will take the entrance exam about 6 month after coming to Japan.

Those students now need a place and opportunity to think about their own future and go out into the world with confidence. We would like to ask for your loving support.

- If this donation project can't reach the target amount by May 31, your money will be refunded.
- If you don't want to use a credit card to donate, please contact ABC Japan (info@abcjapan.org) .
