

Support RONE&Gigi's new theater performance in TOKYO.

Hello!

We are RONE&Gigi,the Japanese professional clown-duo,organizing the only Japanese clown company“ OPEN SESAME.

We are holding the theater clown performance on this September, no one else in JAPAN has ever done.

Many people think that a clown show is possible if there are only performers,but actually,like ballet and Kabuki,is elaborately made because it needs technical skill,mechanism,and expert staff.

In this September,RONE&Gigi will hold the experience-based performance stage in the theater.

This story is inspired by the famous fairy story"The Emperor's New Clothes",based on clowning,illusion,magic and circus acts,and the style is the new in Japan.

In this time,it is the new challenge for us and our audience.

In order to complete and perform the theater performance,we need many kinds of staff and their support,for example technical artist,stage crew,creative staff,receptionist for visitors.

And we also need variety of scenic design,props,and costume...RONE&Gigi prepare them over 6 months from the start of a project.

But,we can't meet all of the expenses of a show by getting all ticket fee.

So,we beg a favor of you.

We are asking you to help fund our new theater performance.

In particular,we would like to support fund for some elements,including technical equipment,rental fee of venue,music...after deduction of ticket fee.

Thank you for your support.

=== **【Performance Information】** ===
