

Dear all!

We'd like to explain our project as below,

Title: "KAMI"

URL: <http://readyfor.jp/projects/KAMI>

Note: Unfortunately, this website is designed for Japanese fund providers but also **available for international fund providers**.

What is our project?

We attempt to launch our project by means of READYFOR's Crowd Funding System.

Our purpose is to make the Poetry "KAMI" into audio-visual content and to distribute it worldwide through YouTube. When the project succeeds, we will be able to inform the people KAMI's world view that is beyond our normal perceptions. We can bring them healing.

Poetry "KAMI" is a story written about the relationship between KAMI and you, that is a sort of indissoluble tie. You do not exist without KAMI, KAMI does not exist without you. As you exist (You do have no doubt about your existence, don't you?), KAMI also exist and watch your life. However, your own view is very different from KAMI's view. We want you to know it by sounds and images.

How to support?

It's easy! Open URL: <http://readyfor.jp/projects/KAMI>

Simply purchase the international vouchers on the right side of the page.

We have two kinds of vouchers, one for Japanese providers and another for international providers. **Please be careful not to choose Japanese vouchers.**
